WORK EXPERIENCE

Intern Frontend Developer / UI/UX Designer | April 2025 – December APTECH, Ibadan

- Developed responsive, data-driven interfaces in React with a frontend team, using JSON data to power dynamic content.
- Worked closely with UI/UX designers to turn Figma prototypes into polished, production-ready pages that stay faithful to the design intent.
- Improved usability and page performance through layout refinements, interaction details and code-level optimization.
- Took FurEverCare from concept to launch: designed it in Figma, built it in React and deployed it on Vercel.

Freelance Web Developer & Product Designer | January 2025 – Present

- Designed and built websites and product interfaces tailored to each client's goals.
- Created brand identities and mobile app designs that gave projects a consistent, recognizable look.
- Delivered complete design-to-development solutions, handling prototyping, implementation and handover.

SKILLS

- **Product Design:** UI/UX Design, Wireframing, Interactive Prototyping, Brand Identity, Mobile App Design, Graphics Design
- **Development:** React, Advanced JavaScript, HTML5, CSS3, Bootstrap, Next.js, Responsive Design, JSON/data-driven interfaces
- **Professional Strengths:** Cross-functional collaboration, clear communication, creative problem-solving
- **Workflow & Deployment:** Git, GitHub, Vercel, Netlify
- **Design Tools:** Figma, Adobe XD, Adobe Photoshop
